Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

INDEX TO AMERICAN MYCOLOGICAL LITERATURE

Appel, O. The control of cereal and grass smut and the *Helminthosporium* disease in Holland and Germany. Phytopathology **5**: 230–232. 31 Jl 1915.

Arthur, J. C. Uredinales of Porto Rico based on collections by F. L. Stevens. Mycologia **7**: 168–196. 28 Jl 1915; 227–255. S 1915.

Includes descriptions of *Ravenelia Stevensii, Argomyces insulanus, Puccinia scleriicola, P. concrescens, P. insititia, Aecidium favaceum,* and *Uromyces densus,* spp. nov.

Blodgett, F. M. Sweet pea powdery mildew. Phytopathology **5**: 237. 31 Jl 1915.

Bonazzi, A. Cytological studies of *Azotobacter chroococcum.* Jour. Agr. Research **4**: 225–240. *pl. 31–33.* 15 Je 1915.

Brown, W. H. The development of *Pyronema confluens* var. *inigneum.* Am. Jour. Bot. **2**: 289–298. Je 1915.

Carleton, M. A. A serious new wheat rust in this country. Science II. **42**: 58, 59. 9 Jl 1915.

Collins, J. F. The chestnut bark disease on freshly fallen nuts. Phytopathology **5**: 233–235. *f. 1.* 31 Jl 1915.

Dodge, B. O. Relationship between *Roestelia transformans* and *R. Botryapites.* Torreya **15**: 133, 134. 16 Jl 1915.

Edson, H. A. *Rheosporangium aphanidermatus,* a new genus and species of fungus parasitic on sugar beets and radishes. Jour. Agr. Research **4**: 279–292. *pl. 44–48.* 15 Jl 1915.

Fink, B. The Ascomycetes of Ohio—I. Preliminary consideration of classification. Ohio State Bull. **19**: 3–34. *pl. 1, 2.* Je 1915. (Ohio Biol. Survey Bull. 5 (Vol. II, No. 1.))

Fink, B., & Richards, C. A. The Ascomycetes of Ohio—II. The Collemaceae. Ohio State Univ. Bull. **19**: 35–70. *pl. 3–6.* Je 1905. (Ohio Biol. Survey Bull. 5. (Vol. II, No. 1.))

Giddings, N. J., & Berg, A. Apple rust or cedar rust in West Virginia. W. Virginia Agr. Exp. Sta. Cir. 15: 1–16. Mr 1915. [Illust.]

Gloyer, W. O. *Ascochyta clematidina,* the cause of stem-rot and leaf-spot of *Clematis.* Jour. Agr. Research 4: 331–342. *pl. 50–54.* 15 Jl 1915.

Graves, A. H. Root rot of coniferous seedlings. Phytopathology 5: 213–217. *f. 1, 2.* 31 Jl 1915.

Hedgcock, G. G., & Long, W. H. A disease of pines caused by *Cronartium pyriforme.* U. S. Dept. Agr. Bull. 247: 1–20. *pl. 1, 2+f. 1.* 20 Jl 1915.

Humphrey, C. J. Tests on the durability of greenheart (*Nectandra Rodiaei* Schomb.). Mycologia 7: 204–209. *pl. 162.* 28 Jl 1915.

Johnston, J. R. Entomogenous fungi of Porto Rico. Porto Rico Board Com. Agr. Bull. 10: 1–33. *pl. 1–9.* 1915.

Jones, L. R. Problems and progress in plant pathology. Smithsonian Inst. Ann. Rept. **1914**: 407–419. 1915.

Kirkwood, J. E. *Peridermium pyriforme* and *Cronartium comandrae.* Phytopathology 5: 223, 224. 31 Jl 1915.

Kunkel, L. O. A contribution to the life history of *Spongospora subterranea* Jour. Agr. Research 4: 265–278. *pl. 39–43.* 15 Je 1915.

Medlar, E. M. A new fungus, *Phialophora verrucosa,* pathogenic for man. Mycologia 7: 200–203. *f. 1.* 28 Jl 1915.

Murrill, W. A. Illustrations of fungi—XXI. Mycologia 7: 163–167. *pl. 160.* 28 Jl 1915.

Panaeolus solidipes, Lactaria plinthogala, L. Volkertii sp. nov., *Cortinellus decorus, Melanoleuca fumidella, Ceriomyces retipes, Scleroderma,* and *Russula pectinatoides* are illustrated.

Murrill, W. A. The new genus *Lentodiellum.* Mycologia 7: 215–216. 28 Jl 1915.

Murrill, W. A. Recent specific names recombined. Mycologia 7: 214, 215. 28 Jl 1915.

Quayle, H. J., & Tylor, A. R. The use of the fungus *Isaria* for the control of the black scale. Monthly Bull. State Comm. Hort. Calif. 4: 333–339. *f. 69, 70.* Jl 1915.

Reed, H. S., & Crabill, C. H. The cedar rust disease of apples caused by *Gymnosporangium Juniperi-Virginianae* Schw. Virginia Agr. Exp. Sta. Tech. Bull. **9**: 1–106. *f. 1–23.* My 1915.

Reed, H. S., & Crabill, C. H. Notes on plant diseases in Virginia observed in 1913 and 1914. Virginia Agr. Exp. Sta. Tech. Bull. **2**: 37–58. *f. 1–17.* Ap 1915.

Saccardo, P. A. Notae mycologicae. Ann. Myc. **13**: 115–138. 10 Je 1915.

Includes lists of fungi from New York and Massachusetts collected by H. D. House, from N. Dakota collected by J. F. Brenckle, from Canada collected by John Dearness, and from Uruguay collected by Dr. F. Felippone and Professor O. Mattirolo.

Sackett, W. G. Spur blight of the red raspberry caused by *Sphaerella rubina.* Colorado Agr. Exp. Sta. Bull. **206**: 1–26. *f. 1–15.* My 1915. [Illust.]

Seaver, F. J. Illustrations and descriptions of cup-fungi—II. *Sepultaria.* Mycologia **7**: 197–199. *pl. 161.* 28 Jl 1915.

Includes *Sepultaria Longii* sp. nov.

Seaver, F. J. Observations on *Herpotrichia nigra* and associated species. Mycologia **7**: 210, 211. 28 Jl 1915.

Stakman, E. C. Relation between *Puccinia graminis* and plants highly resistant to its attack. Jour. Agr. Research **4**: 193–200. *pl. 28.* 15 Je 1915.

Stevens, F. L. Three strawberry fungi which cause fruit rots. Science II. **41**: 912, 913. 18 Je 1915.

Studhalter, R. A., & Heald, F. D. The persistence of viable pycnospores of the chestnut blight fungus on normal bark below lesions. Am. Jour. Bot. **2**: 162–168. 13 My 1915.

Vincens, F. Deux champignons entomophytes sur Lépidoptères, récoltés au nord du Brésil. Bull. Soc. Myc. France **31**: 25–28. *pl. 4.* 1 Jl 1915.

Verticillium Barbozae and *Fusarium acremoniopsis,* spp. nov., are described.

Weir, J. R. A new leaf and twig disease of *Picea Engelmanni.* Jour. Agr. Research **4**: 251–254. *pl. 34.* 15 Je 1915.

Weir, J. R. Observations on the pathology of the jack pine. U. S. Dept. Agr. Bull. 212: 1–10. *pl. 1 + f. 1–4.* 26 My 1915.

Weir, J. R. *Razoumofskya tsugensis* in Alaska. Phytopathology **5**: 229. 31 Jl 1915.

Weir, J. R. Telial stage of *Gymnosporangium tubulatum* on *Juniperinus scopulorum*. Phytopathology **5**: 228. 31 Jl 1915.

Weir, J. R. *Wallrothiella arceuthobii*. Jour. Agr. Research **4**: 369–378. *pl. 54, 55*. 15 Jl 1915.

Whetzel, H. H. Diseases of the peony. Trans. Massachusetts Hort. Soc. **1915**: 103–112. *pl. 1, 2*. 1915.
